FOR IMMEDIATE RELEASE

JWZ HAS NEW RLA

Las Vegas, NV – JW Zunino Landscape Architecture is proud to announce that Anna Peltier has passed her board certification examinations to become a Registered Landscape Architect in Nevada.

Ms. Peltier was the first LEED-accredited professional (LEED AP) practicing at a Landscape Architecture firm in Southern Nevada, and has now received her LEED Plus certification with a specialty in Building Design and Construction (BD+C) in LEED v3.

Ms. Peltier graduated with a Bachelor of Landscape Architecture from Michigan State University prior to joining JWZ in July 2007. Her senior capstone research project was “Green Roofs in a Desert Climate”.

Ms. Peltier’s sustainable design expertise includes heat-island reduction, water quality, water-efficient irrigation, native and desert-adaptive landscapes, and green roofs - as well as ecological awareness and alternative energies. Ms. Peltier is a member of USGBC (United States Green Building Council) and Green Roofs for Healthy Cities.
